

This is to inform you that as a paid subscriber of XM Radio, I am strongly opposing the NAB's petition 04-160. As I travel through out the day I like being able to listen to traffic reports as there is constant road repair being done and if I need to change my route because of this, I would like to be able to. I also like being kept abreast of the ever changing weather here in Texas. I love my satellite radio because it provides a variety of music, comedy, sports and etc.

Once again, I strongly oppose your Petition 04-160.
